Our mission is to empower our clients in the mining and renewable energy sectors by delivering high-quality solutions that address their specific needs. We pride ourselves on our dedication to customer satisfaction, technical expertise, and a forward-thinking approach that embraces the evolving landscape of industrial solutions.

Our work reflects our pride; we make it our number one goal to deliver practical, yet cost-efficient solutions tailored to meet your engineering needs and exceed your project expectations. We are committed to the sustainability of the communities, our clients businesses and the environments in which we live and work.

Introduction

“ the most sought after sourcing partner of industrial products and services

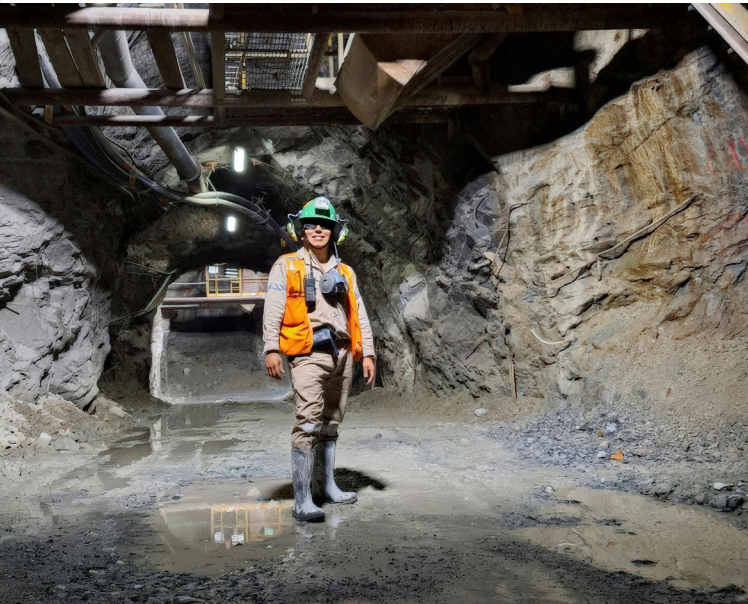

WHAT WE ARE KNOWN FOR

With more than 15 years experience, Hongheng METech adds value and piece of mind to operations in the mining, exploration and civil engineering industries that rely on moving equipment and related supplies to all parts of the world.

Having an excellent relationship with local and international suppliers, Hongheng METech will deliver the correct equipment and supplies safely, and within the correct time frame to site, allowing our customers piece of mind and to concentrate on their core business.

Hongheng METech is the supplier and manufacturer of high quality mining equipment and related accessories. We also provide fast and efficient service and product support in the mining industry. We mine and work for companies like PMG Mining as well as we supply to the international market like South Africa.

Business Goals..

We strive to deliver high quality products and service at all times. Our staff is competent and well qualified in the mining industry to offer accurate and reliable support at all times.

Hongheng METech is a well established business that shows remarkable growth throughout. One of our main aims is to offer a one-stop mining supply and support service across the world. Our manufacturing division is well equipped with specialised machinery and experienced staff to provide quality products. Random testing of our products is done in our own in-house testing facility to guarantee superior quality. We offer a wide range of mining supplies and rock drilling equipment.

BROADCAST MARKETING

Hongheng Mechanical and Electrical Technology Limited is a leading provider of industrial solutions, specifically tailored to meet the demands of the mining and renewable energy sectors.

CORE VALUES

Thought leaders in sustainability and innovation, we operate under a strong set of values that extol innovation, integrity, teamwork, and excellence.

CORE VALUES

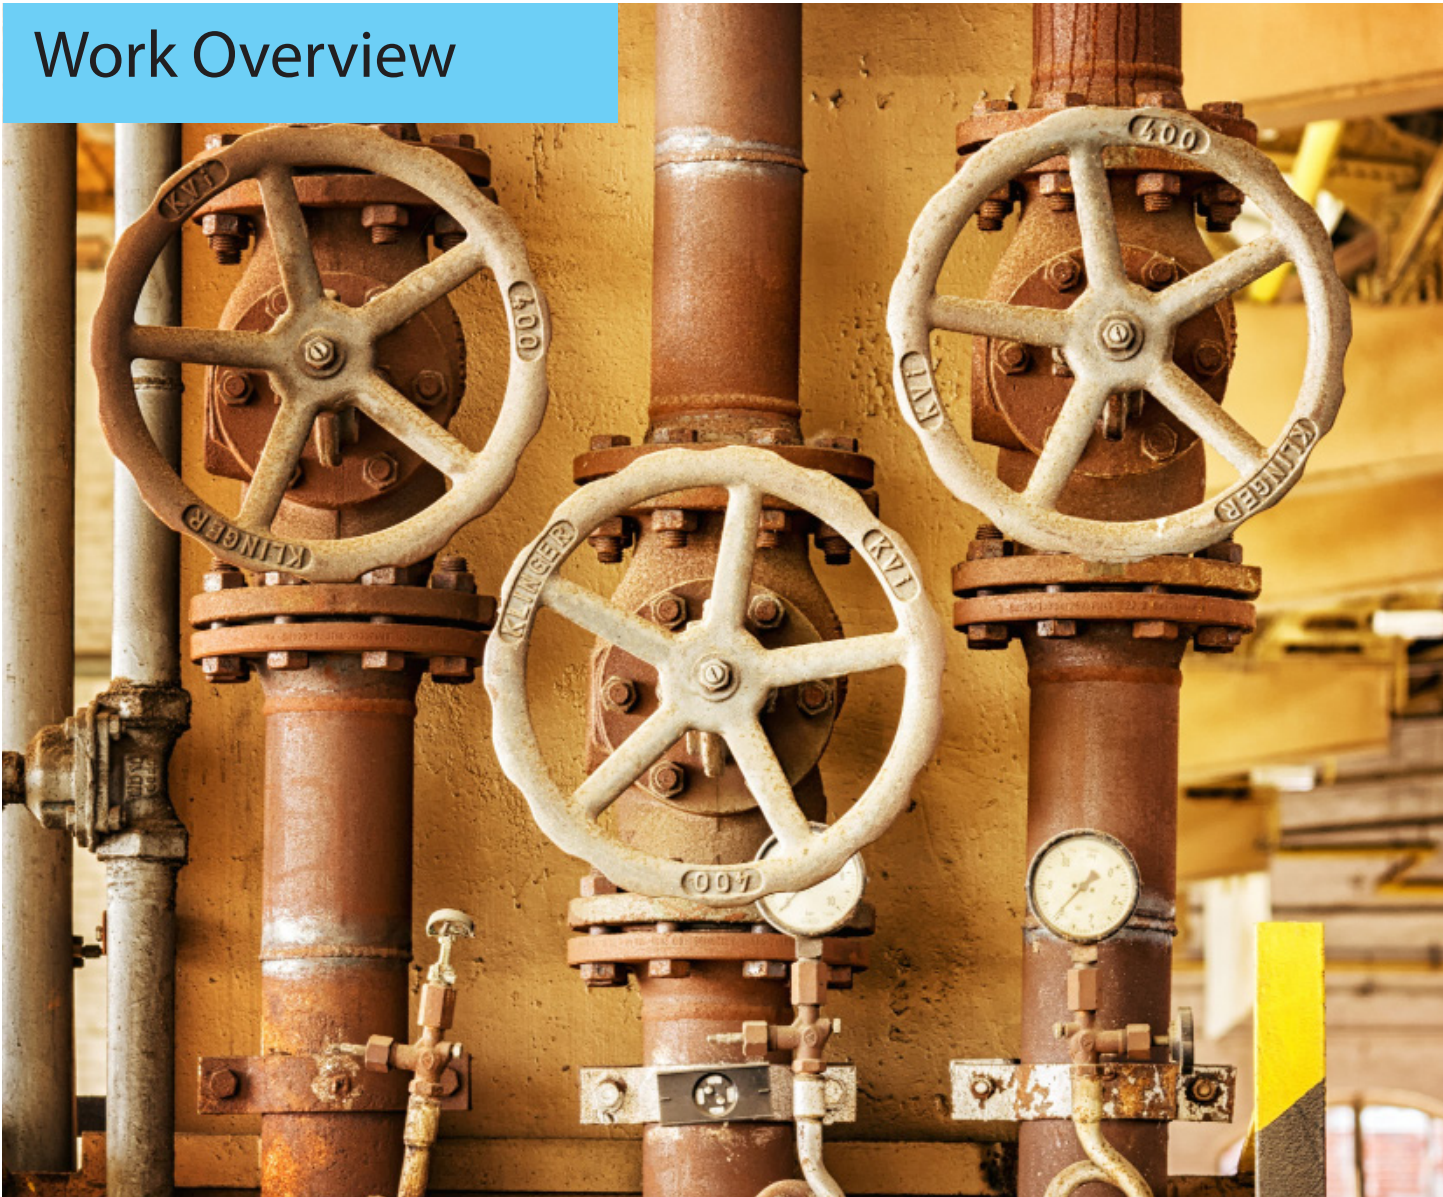

Our values mean we strive to achieve workable, sustainable solutions that benefit our clients, the environment, our societies, and each other.

CORE VALUES

Working together to enhance society, we work proactively, openly and inclusively with our clients, partners and stakeholders to achieve excellence in everything we do, delivering on our promise and providing added value.

Work Overview

1

ABOUT US

Our expertise spans a variety of services and products, including advanced mining technology, renewable energy solutions, and comprehensive consulting services. We focus on creating solutions that not only aim to optimize operations but also adhere to the highest environmental standards. Our vision is to be a trusted partner in building a smarter, greener industrial future.

2

OUR MISSION

To empower industries through innovative, reliable, and sustainable solutions that maximize performance and minimize environmental impact. Based on our vision to deliver exceptional results and customer service, our mission is to provide safe operating conditions as the foundation of our value proposition to offer customers, employees and stakeholders accurate and on-time project deliverables.

Our Strategy

Our Percentage increase in customers/clientele is significantly on a rise due to our quality services.

25% 

Our customers are growing on an average yearly rate of 25%.

38% 

Our Staff members/capacity is growing proportionally to increased product demand at a 38% Yearly rate

Our Competence

Our experience encompasses gold, uranium, platinum, iron ore, manganese, coal, copper, chrome, nickel, diamonds, mineral sands, phosphate, bauxite, andalusite and antimony.

Many of our engineers are recognised 'competent persons' in accordance with the main mining stock exchanges.

We undertake and manage all aspects of mine study work, from interrogation and acceptance of a geological model through to implementation, construction and operational support of the mine.

Our Approach

Our engineers are professionals in their individual disciplines, and have the added benefit of extensive operational experience. This enables our teams to adapt to our clients' varied requirements, while utilising our experience from the broader industry. This means we can take on multidisciplinary project assignments, which add value and benefit our clients and partners.

Our strong values of integrity, teamwork and excellence means we have a proud track record of consistency in delivering on our promises. All documents are reviewed internally, and our engineers are rewarded on output only, ensuring our clients achieve maximum quality.

Our Experience

The focus of Hongheng METech started with traditional repair and maintenance projects but soon developed into a multi-disciplinary unit that can deal with large general building projects. Hongheng METech's Procurement and Supply division specialises in delivering complete, single source procurement solutions to our customers worldwide.

TEAM WORK

Our experienced team has developed strong relationships with global suppliers, enabling us to source and supply an extensive range of high quality products, materials and equipment.

We can create customised solutions and procure even the most specialised items, whilst efficiently managing the supply chain process from start to end. We operate across multiple industries and markets worldwide.

CREDIT/FINANCE

Hongheng METech provides bespoke Supply Chain Credit Solutions for corporates. In integration with our commodities and procurement operations, our credit solutions enable us to provide comprehensive trade finance solutions to our customers. Through our experienced financial trade team, we can tailor Supply Chain Credit Solutions to our customer's cash conversion cycle, in the process mitigating the financial challenges they may face from the supplier's payment terms and strengthening their financial position in the long term.

PROJECT MANAGEMENT

Hongheng METech manages projects with great care, applying expertise and specialised services, partnering with each client in a unique way to ensure successful and lasting relationships. Clients can count on Hongheng METech to provide support well after the completion of projects.

MAIN SERVICES

Civil engineering, quarrying and open pit mining contractors all need the services of blasthole drill rigs. Hongheng METech's Drilling Equipment has been supplying drill rigs into these market sectors for many decades.

The products are known in the market for being on the cutting edge when it comes to productivity, energy efficiency, safety and economics.

Mining Solutions.

We offer a comprehensive suite of solutions tailored to the unique demands of the mining sector. From equipment supply and automation systems to safety technologies and energy optimization

Drilling Tools & Attachments

We pride ourselves on being able to supply the complete drilling solution that extends to the manufacture and supply of quality rock drilling tools.

Energy Solutions

As part of the global transition to sustainable energy, we deliver innovative solutions that support the development and operation of solar, wind, and hybrid energy projects.

Competitive Advantage

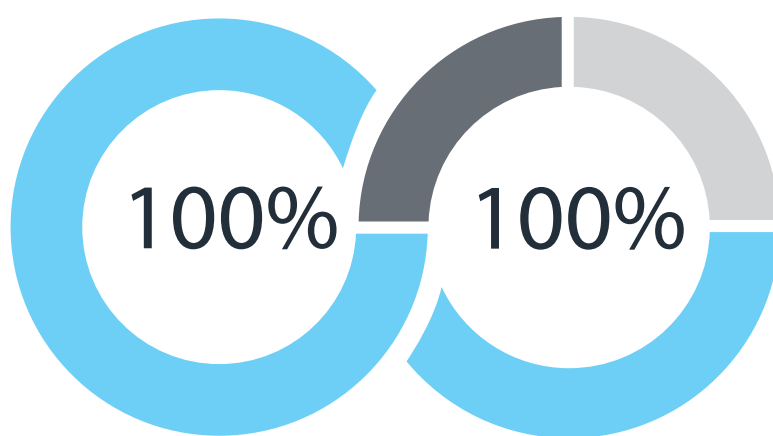

With more than 15 years experience in China, Hongheng METech adds value and piece of mind to operations in the mining, exploration and civil engineering industries that rely on moving equipment and related supplies to all parts of the world.

Having an excellent relationship with local and international suppliers, we will deliver the correct equipment and supplies safely, and within the correct time frame to site, allowing our customers piece of mind.

What We Do

One stop shop for the following:

- Turnkey Mineral Processing Plants
- Mobile Crushing & Screening Units
- Conveyors and Material Handling Systems
- Modular Tailings Recovery Systems
- Solar PV Systems (Utility & C&I scale)
- Wind Power Components & Integration
- Battery Energy Storage Systems (BESS)
- Hybrid Microgrid Solutions
- Engineering supplies such as pumps, bearings, compressors, conveyor belts, electrical motors, electrical supplies and generators.
- Project Management advisory.

CUSTOMER SATISFACTION

Our core values are honesty, integrity, loyalty and respect. These are at the foundation of the culture of our business. From these values, we have fostered trusted relationships in the markets that we serve.
